

Lyman's "Big Dipper" Electric Casting Furnace

With 10+ lbs. capacity and features like fast heat-up time with heat control to +/- 10 degrees. Easy "on-off" temperature dial. Compact size with wide mouth for easy ladling.

LY2800350 \$52.99

Lyman's "Big Dipper" Casting Starter Kit

Includes "Big Dipper" electric casting furnace with 10+ lbs. capacity, Lyman Casting Dipper, Ingot Mould for storing excess lead, Super Moly Bullet Lube, Orange Magic Bullet Lube, Alox Bullet Lube, the Lyman Cast Bullet Handbook and the Instruction Guide for Lyman Reloading & Bullet Casting Products.

LY2800375 \$103.99

Lyman's "Master Casting Kit"

With a 10 pound capacity, the electric Big Dipper can melt enough alloy to turn out plenty of top quality bullets quickly. The kit's low price also includes Lyman's popular improved 4500 Bullet Sizer/Lubricator. Simply add the right top punch and sizing die and the 4500 will smoothly size down your bullet to the correct diameter while it evenly applies the provided Super Moly Lubricant. In addition to the Big Dipper and the 4500 Sizer/Lubricator, the kit features a long handled casting dipper, a handy ingot mould and the widely acclaimed "Bible of Bullet Casting"; Lyman Cast Bullet Handbook. All this for less than the price of most casting furnaces.

LY2712000 \$242.99

Lyman Mag 25 Digital Melting Furnace

Designed for the high volume bullet caster, the Mag 25 offers an array of features not found on any other furnace. With 850 watts of power, the furnace is quick to heat up, even with the increased capacity. The digital display on the front panel shows both the actual lead temperature as well as the desired temperature setting. Precise furnace operation is enhanced by the simple key pad controls.

- 25 pound capacity
- Universal mould guide accepts most Lyman, RCBS, Redding/Saeco & Lee moulds
- Built-in storage compartment
- Powerful 850 watt heating system
- Warming shelf for pre-heating mould blocks
- Reliable bottom pour valve system for increased bullet production

LY2800382 \$307.99

Lyman's Digital Lead Thermometer

The Lyman Digital Thermometer is a fast and accurate way to check the temperature of your casting alloy. The long 6" probe will work with the largest casting furnaces and keeps your hand away from molten lead. The large, easy to read display can be set for Fahrenheit or Celsius and also features a hold button to lock a reading on the display.

LY2867797 \$24.99

RCBS's 10 lb. Cast Iron Lead Pot

It features a flat bottom for stability, bail handle, pouring spout, and a tab lifter for gripping with insulated tongs or pliers.

RC80010 \$21.99

Lyman's 10 lb. Cast Iron Lead Pot

Nominal pot capacity is ten pounds of alloy. Flat bottom prevents tipping. New design includes convenient pour spout.

LY2867795 \$21.99

Lyman's Ingot Mould

Ingot Mould produces four easy to use, 1 pound ingots. Each mould forms four, easy-to-use ingots that stack easily and will weigh approximately 1 lb. Sides of mould have 30° draft for easy ejection of lead ingots.

LY2837794 \$25.99

RCBS Ingot Mould

Mould up to four ingots at once and cool them quickly with this handy accessory. It's perfect for melting down scrap lead and preparing alloys for future use.

RC80005 \$21.99

Lee Ingot Mould

Use to cast 1/2 and one pound ingots. Perfect for remelting and alloying. Wood handle stays cool.

LE90029 \$11.99

Lee Mould Mallet

Features Ash hardwood construction utilizing the same wood species baseball bats are made from. Mallet is 10 inches long.

LE90084 \$7.99

RCBS Mould Mallet

Stop using a metal object to tap out your cast lead bullets and potentially damaging your mould! RCBS has reintroduced their wooden mould mallet to safely accomplish this goal.

RC80007 \$10.99

RCBS Lube-A-Matic - 2 Bullet Sizer/Lubricator

Size and lubricate cast bullets in one step with the Lube-A-Matic-2. Just insert a bullet in the sizer die and pull the handle. A sized and lubricated bullet ejects on the upstroke. A fingertip regulator lets you fine-tune lubricant flow. The Lube-A-Matic-2 also seats gas checks. A high quality tool that's a "must have" item for the serious bullet caster.

RC80040 ... Lube-A-Matic-2 \$199.99
RC86880 Dust Cover \$10.99

Lyman 4500 Lube Sizer

Features solid one piece bottom casting, heating elements, and a longer ball knob handle for more leverage for sizing and lubricating the largest bullets. Includes gas check seater and super moly lube.

LY2745880 4500 w/o Heater \$203.99
LY2745892 4500 w/Heater (115 V) ... \$221.99
LY2745896 ... Heating Element (115 V) ... \$44.99

Lyman Gas Check Seater

This ingenious, patented device allows consistent, square seating of gas checks. Works on all Lyman #450, 4500 Sizer/Lubricators and RCBS Lube-A-Matic.

LY2745881 \$11.99

Lyman Universal Lube Heater Accessory

This unit heats the Lube/Sizer to the right temperature for smooth, effortless bullet lubrication. The mounting plate is drilled and tapped for Lyman 450, RCBS, Saeco and Star Lube/Sizers. Plugs into standard 115 volt outlet (comes complete with mounting hardware).

Note: Do not confuse with 4500 heating element.

LY2745885 \$63.99

Lyman Casting Thermometer

This stainless steel thermometer will measure a temperature range from 200°F to 1000°F and has a six inch stem for use with even the deepest furnaces.

LY2867793 \$46.99

RCBS Lead Thermometer

With a 1000° F range and +/- 1% accuracy, their lead thermometer lets you pour lead at the optimum temperature. Large numbers are printed on a 1-1/2" glass-covered face.

RC81175 \$59.99

Frankford Arsenal CleanCast Lead Fluxing Compound

CleanCast is non-smoking, odor-free, and it really works. Only a small amount is necessary to prepare even a 20 pound lead pot for bullet production.

FFA441888 \$9.99

Lyman Sizing Dies

Lyman improved sizing dies now have 90 degree hole spacing. It's now easy to lubricate bullets even with today's hard lubricants. Lyman sizing dies also feature a tapered mouth and hardened interior ensuring alignment for perfect cylindrical shape. Interior dimensions correspond to suggested diameters for all popular rifle and pistol calibers. Refer to the chart for proper size.

Sizing Dies \$29.99

RCBS Hollow Stick Bullet Lubricant

RCBS bullet lubricant fits the lube-a-matic sizer/lubricator and most others that use a hollow stick lubricant. RCBS rifle bullet lubricant is a blend of Alox and bees wax, formulated to NRA specifications. Works fine for pistol bullets.

RC80008 ...Hollow Stick Bullet Lubricant .. \$5.99
RC80009Rifle Bullet Lubricant \$5.99

Lee Liquid Alox

The lube coats the entire bullet like a thin jacket and dries to a soft, varnish-like finish that really clings. The dried coating does not degrade gunpowder. While it works better than any other Lube with all cast or swaged bullets, it works best with micro band bullets, which are designed for tumble lubing.

LE90177 \$8.99

Lee Lube & Sizing Kit

Fastest and easiest way to lubricate and size cast bullets. Standard 7/8" - 14 threads fit any reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container. Factory Crimp Die sold separately.

Lube & Sizing Kit \$19.99

SAECO Bullet Lubricant

SAECO Gold - Pistol Lubricant. Keeps barrels cleaner and reduces leading to a minimum for superior accuracy.
SAECO Traditional - Rifle Lubricant. This is the NRA formula for Alox and bees wax. They use natural yellow bees wax, not synthetics. Formulated to prevent leading improve accuracy at higher velocity levels.
SAECO Green - Rifle and Pistol Lubricant. An original SAECO formula brought back. Contains no alox. Slightly harder than the other SAECO lubes. Available in solid or hollow.

RE37001 Gold Solid \$7.29
RE37002 Traditional Solid \$7.29
RE37003 Green Solid \$7.29
RE37004 Gold Hollow \$7.29
RE37005 Traditional Hollow \$7.29
RE37006 Green Hollow \$7.29

Lee Hardness Testing Kit

No more wasted components shooting too soft or too hard lead. Cast and load with confidence knowing your alloy is up to the job. Quickly and precisely check hardness of your lead alloy. Exclusive conversion chart tells the maximum operating pressure of any lead alloy. Measures the impression created using the Lee Pocket Microscope. The diameter of the impression relates directly to the hardness of the lead alloy. Look up your impression diameter in the chart to determine the hardness and the maximum operating pressure of your alloy.

LE90924 \$67.99

Redding SAECO Lead Hardness Tester

A SAECO Lead Hardness Tester will pay for itself many times over by allowing you to convert inexpensive scrap lead of unknown composition into casting alloy of known and reproducible hardness. The SAECO Lead Hardness Tester measures alloy hardness by determining the depth of penetration of a hardened steel indenter into a bullet. Relative hardness of the bullet is read off a vernier scale. SAECO has created a chart that illustrates some commonly encountered alloys, their SAECO values, and where they would fall on the Brinell scale.

RE42000 \$164.99

Lyman's Orange Magic Premium Bullet Lube

This hard lubricant is designed to provide higher velocities with cast pistol and rifle bullets without leading. (Recommended for use with the Lyman Lube Heater).

LY2857286 \$5.99

Lyman's Super Moly Bullet Lube

The Molybdenum Disulfide in this lube coats the barrel for increased velocity and improved accuracy. In addition, it virtually eliminates leading and it flows through lube sizers without heat, yet won't melt at 130°.

LY2857272 \$5.99

Lyman's Black Powder Gold Bullet Lube

Match proven Black Powder Gold was formulated for long range black powder shooting. It keeps fouling soft and flows through lube sizers for effortless bullet lubing. It can be applied by hand to muzzleloading bullets.

LY2857266 \$6.99

Lyman's Alox Bullet Lube

This is the original NRA formula developed for increased cast bullet velocities.

LY2857277 \$5.99

Lyman's Ideal Bullet Lube

A great all-purpose lube.

LY2857275 \$5.99

BULLET CASTING

These offer the traditional muzzleloader a tapered bullet design for easy loading. Large deep lube grooves hold enough lube to keep fouling soft and ensure accuracy without leading.

Mini and Maxi Mould

These designs are exactly reproduced from originals used over 100 years ago. The best bullets selected from American and British design from 45 to 69 caliber.

RCBS Neck Expander Dies for Cast Rifle Bullets

To eliminate deforming the base and shaving lead off the sides of your lead rifle bullets during seating. RCBS strongly recommends using their Neck Expander Die. In one step, the neck expander die expands the neck and slightly flares the case mouth of your bottle neck cases.

BULLET CASTING

Lyman (Foster Type) Shotgun Slug Mould

Available in 12 or 20 gauge, these moulds cast perfect hollowbase slugs which do not require rifling. Slug moulds are single cavity only and cut into the larger double cavity block. They require double cavity handles. Loading data available in the new Lyman Shotshells Handbook 5th Edition.

Lyman Rifle Moulds

Lyman rifle moulds are the standard by which all other rifle moulds are judged. The designs shown below picture gas checks where appropriate. All Lyman rifle moulds are available in double cavity only. Except those moulds where the size of the bullet necessitates a single cavity. Hollow point designs are noted above bullet.

Lyman Mould Handles

Solid metal frame is easily attached to blocks with slotted screws. Hardwood handles provide a cool secure grip. Designed to provide uniform grip with different mould blocks.

Lee Moulds

All Lee Mould Blocks are made from aluminum, because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast with sizing. **Lee Hollow Base Moulds** - Lee Hollow Base Moulds are available in single cavity only. They all have self-centering automatic core pins for the fastest possible moulding. Handles and sprue plate included in hollow base moulds.

Lee Six Cavity Commercial Quality Moulds

These are made for heavy duty volume production. The mould and blocks have steel bushing and alignment pins for lasting precision. Price includes a cam operated sprue plate to eliminate the pounding common to ordinary moulds. The sprue plate is hard anodized and held down with wave washers at each end. No finer mould can be purchased at any price. **Handles not included.**

Lee Mould Handle

Precision steel mould handles fit not only the Lee Six Cavity blocks, but most other brands of one and two cavity moulds. Priced low enough so you can have a set for every pair of blocks. **LE90005** \$14.99
