Beartooth ScopeGuard 2.0

Beartooth's Scope-Guard 2.0 is the easy way to extend the life of your scope by eliminating unnecessarv wear and tear.

Heavy-duty neoprene construction is shock absorbent, water resistant, and prevents harmful dirt and debris penetration. Other scope covers need to be taken off, while Beartooth's open ends allow for in-the-field use. The 2.0 version is improved from the first generation ScopeGuard - better fit, construction, and materials. No more Velcro closure. Instead the bottom opening is lined with elastic - which provides a nice, snug fit. Sides can be pulled up to easily access turrets for necessary adjustments. Also features fold-over trim for styling and rubber-backed ends on the objective and evepiece to keep cover in place. ScopeGuard 2.0 Sizing Chart:
